

Larry Howard Benis

Died Age 19

Methadone, Xanax

My son Larry Howard (Bubba) Benis died of an overdose of Methadone and Xanax on October 9, 2005.

He was 19 years old.

He was a great kid but couldn't fight the addiction. Like any other parent who has lost a child to addiction, the pain is unbearable. The stories are all the same — I know, I'm there now.

God bless you all.

Born: November 14, 1985 Died: October 9, 2005

Love and miss you Bubba, Forever in our hearts Love, Mom and Dad
