Drug-Related Murder

Victor Joseph Boldreghini III

March 18, 1974 to August 1, 1995

Joey was murdered on August 1st, 1995 by so called "friends" after the LSD he sold them didn't get them high. He was shot in the back of the head in execution style. Joey was only 18 years old. His girlfriend witnessed the murder as she hid in the bathroom. Her life was destroyed and she has been emotionally scarred for life. There are no such things as "true friends" in the drug world.

Joey was the kindest, most gentle boy you would ever meet. He was sensitive, gentle, and loving. His family's and friends' lives were destroyed.

God Bless You, Joey.
